

Dear FCC Commissioners & Staff:

The propped changes which would eliminate or restrict an ISP's ability to provide me service should be voted down.

I wish to continue with my local ISP on a personal level. I do not want another corporate giant that will take forever to take care of my needs. I already have these type of problems with Verizon and Ameritech.

Please do not regulate these local ISP's out of business, or to a degree that they will be cost prohibative.

Sincerely,

Ed & Jan Hemeyer

Sincerely,

Ed Hemeyer
